Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 11 and 12 are objected to because of the following informalities:

Claim 11 recites the term "said imaging stage comprises at least two lenses" in lines 1-2. However, claim 10 in which claim 11 directly depend from recites an imaging system comprising a plurality of imaging stages. Furthermore, Figs. 1 and 2 of the instant application show that each imaging stage comprises two lenses. Correction such as --each of said imaging stage comprises at least two lenses-- is suggested

Claim 12 reties "said imaging stage comprise" in lines 1-2. It seems to the examiner that this is a typographical error. Correction such as --said imaging stages comprises suggested.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: a radiation source that provides the scanned and imaged radiation. Note, although the independent claim 9 recites a stationary optical source, the claim does not positively recite a radiation source. Hence, the lack of positive recitation of radiation source renders the claims indefinite.

Claim 11 recites the term "said imaging stage comprises at least two lenses" in lines 1-2. It is not clear from the language of claim 11 whether each imaging stage comprises at least two lenses.

Allowable Subject Matter

Claims 9-16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
